Ritmo Advanced Pregnancy Sound Systems for Unborn Babies

Author: Brian

Talking to your [unborn child](#) may seem silly especially if you are unsure if he or she really hears you. But thanks to the Ritmo Advanced [Pregnancy](#) Sound System, you can now share some sensory and emotional experience for your developing baby. It can be easily connected to any audio device such as an [iPhone](#), MP3 player or Blackberry.

The Ritmo is a fashionable and lightweight belt that pregnant women wear around their belly. The belt has 4 speakers and a controller which you can [slip](#) in your pocket. From there, tell stories or play some music and let [baby](#) now that mommy (or daddy) is around!
