

## Can you hear me now? Talk to Your Baby in the Womb Using an iPhone and the New Ritmo™ Advanced Pregnancy Sound System

**January 13, 2010** – Columbia, SC, [Nuvo Group USA](#) announces the release of the Ritmo™ Advanced Pregnancy Sound System, which delivers unparalleled quality and safe sound to prenatal listeners.

Ritmo was created to provide a convenient, comfortable and safe way for families to share the sensory and emotional experience of bonding through sound and music with their developing baby.

Ritmo can connect to most audio devices with a universal stereo plug-- such as iPods, MP3 players, iPhones and Blackberries. Here's how it works...

### The Research Behind Ritmo

Extensive scientific research shows numerous positive contributions prenatal auditory stimulation and the benefits of music to human fetal development.

Reactive listening begins at 17 weeks, so choose classical music for the calming Mozart Effect, the classic rock of The Beatles, or the upbeat show tunes of Broadway.
