Nuvo Group USA recently announced her pregnancy advanced [Rhythm Sound System](#) is touted to provide unprecedented sound quality and [security](#) prenatal listeners. While [the baby](#) is still developing [in the womb](#) of the mother, Pace is able to offer a convenient, comfortable and safe for families to share the experience sensory and emotional bonding through the use of sound and music. Thanks to a 3.5mm audio port, you can connect most portable audio devices like iPods, [portable media players](#), BlackBerry and the like.

A pregnant woman wearing a fashionable lightweight belt around her pregnant belly. The belt has four speakers and a controller, the size of a deck of cards, which fits comfortably in a small pocket. Your own audio player plugs into the controller, which uses patented safety NuVo & Sound Technology to regulate the sound output to a level safe for the baby hears in utero, regardless of how hard the sound was recorded or volume being played.

Although research has noted in the introduction of reactive heard 17 [weeks of gestation](#) onward, other studies point to the positive development of the fetus with the type of music, including the growing ties and stress reduction. Pace that favors the theory by other means including dad to read her favorite book, brothers chatting with others, grandparents belting out a lullaby or even having someone talk on the phone from a distance. Once the baby is born, Pace still has a shelf life because it has applications for the home, car and reach for toys.
